

# About Vantage **Plastics**

## Mission Statement:

The mission of Vantage **Plastics** is to conduct our business based on virtues, which we believe improve life for our customers, employees, community, and others with whom we interact.

## Vision:

Vantage **Plastics** provides world-class products and services which yield significant advantages to multiple industries. It is at the pinnacle of the thermoforming industry as it provides the most expert and professional resources within the industry. It grows synergistic customer relationships, through innovation, and forward thinking. It remains at the forefront in maintaining state of the art manufacturing and design capabilities, and has a workforce that is highly skilled and motivated.

## Quality Statement:

Vantage **Plastics** is committed to providing our customers with the best products, services, and innovative solutions. This commitment is based on a dynamic quality philosophy which requires continual synergetic improvement in all phases of our operations, and customer interface.
